SUMMARY

My work experience includes over 25 successful years in the entertainment industry as a Broadway Local One Stagehand specializing in Electrics. I am taking the opportunity to expand my horizons and concentrate on jumpstarting a second career in the world of web development.

Having a strong work ethic and being in charge of large crews in conjunction with delegating responsibilities, while providing quality assurance oversight, have honed my leadership abilities and ingrained in me the importance of teamwork and the appreciation of the vast skills needed to form a functioning team unit to accomplish audacious goals.

DEVELOPER EDUCATION AND EXPERIENCE

Rutgers University, New Brunswick, NJ - Web Coding Bootcamp - Full Stack Developer

JUNE 2020 - DECEMBER 2020

Certificate of Completion • Center for Continuing Professional Development

High intensity curriculum covering a vast array of computer programming skills in a completely remote environment due to Covid-19. Group projects were consistently ranked as “best in the class” by course instructors as well as fellow students.

PROJECTS

Github Repo: <https://github.com/BwayCarl/Project1-Meal-and-Drink-app>

This team project is an application that randomly provides recipes for four different meals or four different cocktails after choosing a main ingredient. Built using HTML CSS, JavaScript and jQuery AJAX for API calls.

PROJECTS (Continued)

MORE FOOTBALL LESS COVID

Live site: <https://fathomless-escarpment-94264.herokuapp.com/>

Github Repo: <https://github.com/BwayCarl/EvenMoreFootballLessCOVID>

This team project leverages numerous technologies throughout the full stack, to generate a user experience that gathers data from multiple sources to provide tailored safety measures per NFL team in an attempt to mitigate COVID risk and hopefully allow for people to safely attend NFL games all season. This application is deployed on Heroku, was designed using an MVC folder structure, and leverages Node, Express, MySQL, a Sequelize ORM and Handlebars as a templating engine.
